COMFORT LINE, INC. CERTIFICATION STATEMENT

April 1, 2010

This letter is to certify that Comfort Line manufactures the following exterior windows and doors which are Eligible Building Envelope Components. These products qualify for a tax credit under § 25C of the Internal Revenue Code which allows credit for such products for non-business energy property.

When manufactured with the Insulated Glass options below, each product meets or exceeds the required u-factor of 0.30 and SHGC of 0.30 and qualifies for the 2009 / 2010 tax credit.

Further documentation for each individual product manufactured by Comfort Line can be found on the National Fenestration Rating Council website at www.nfrc.org.

A. Series 2100 Casement

- Twin IG Units with LowE³ 366 and Argon (*January 1, 2009*)

- Triple IG Units with LowE³ 366 and Argon (*January 1, 2009*)
- Twin IG Units with LowE² 272 and Argon (*March 16, 2010*)

B. Series 2100 Awning

- Twin IG Units with LowE³ 366 and Argon (*January 1, 2009*)
- Triple IG Units with LowE² 272 and Argon (*January 1, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*January 1, 2009*)
- Twin IG Units with LowE² 272 and Argon (*March 16, 2010*)

C. Series 2100 Picture

- Triple IG Units with LowE² 272 and Argon (*January 1, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*January 1, 2009*)
- Twin IG units with LowE³ 366 and Argon (*May 8, 2009*)

D. Series 2100 Roundtop

- Twin IG Units with LowE³ 366 and Argon (*January 1, 2009*)
- Triple IG Units with LowE² 272 and Argon (*January 1, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*January 1, 2009*)

E. Series 4000 Picture Windows

- Twin IG Units with LowE³ 366 and Argon (*January 1, 2009*)

F. Series 4000 Double Hung

- Twin IG Units with LowE³ 366 and Argon (*July 17, 2009*)
NO GRIDS ONLY (*Use of grids does not qualify for the tax credit*)

G. Series 8000 Double Hung

- Twin IG Units with LowE² 272 and Argon (*May 29, 2009*)
- Twin IG Units with LowE³ 366 and Argon (*May 29, 2009*)
- Triple IG Units with Low E² 272 and Argon (*May 29, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*May 29, 2009*)

H. Series 8020 Sliders

- Twin IG Units with LowE³ 366 and Argon (*April 20, 2009*)
- Triple IG Units with LowE² 272 and Argon (*April 20, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*April 20, 2009*)

I. Series 5000 Patio Door

- Twin IG Units with LowE³ 366 and Argon (*May 1, 2009*)
- Triple IG Units with LowE² 272 and Argon (*May 1, 2009*)
- Triple IG Units with LowE³ 366 and Argon (*May 1, 2009*)

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

Allan Hite
Director of Engineering / Product Development

NOTES:

Products have been simulated by an independent third party laboratory with their test results available to support the claim that the specified products meet the .30 u-factor and .30 SHGC requirements with the specified glass option indicated. The above representation applies to only those orders placed and verified after the date noted.

Limitation of Liability: Due diligence was used in rendering the information contained herein and is accurate at the time of publication. Due to product changes and other performance factors, all test data is subject to change without notice. Comfort Line reserves the right to discontinue or modify any product line listed above.

Comfort Line assumes no liability regarding the homeowner's ability to obtain tax credits. The taxpayer is advised to consult their tax professional or the Internal Revenue Service. This information is provided as a service to our customers.
